

## // Business continuity

“Offline” isn’t an option. RebelGrid shields your operations from outages and keeps your business running uninterrupted.

## // First responders

When disaster strikes and networks fail, RebelGrid keeps teams connected by powering coordination and saving minutes when they matter most.

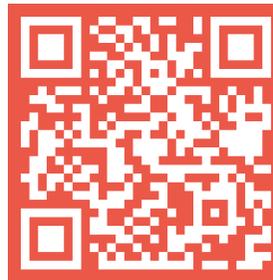

## // Field operators

From construction sites to research bases, RebelGrid keeps your teams in sync, connected, and in control - no matter how remote or complex your setup.

# RebelGrid

A portable,  
always-ready  
network unit

**REBELROAM**

## Key Benefits

### // Unbreakable Connectivity:

Bonded 5G + LEO satellite delivers seamless connectivity- even when local networks fail.

### // Rapid Deployment & Ease of Use:

Deploy in under 15 minutes with no specialist configuration- field teams can self-install even under pressure.

### // Protected & Compliant Data:

End-to-end encrypted (SHA-256) SD-WAN ensures data confidentiality, integrity, and compliance with operational security requirements.

### // Operational Flexibility:

Multi-source power (PoE, AC/DC, USB-C) and mounting options (tripod, pole, vehicle, table) enable setup anywhere- from field clinics to remote offices and vehicles.

## Everything included in RebelGrid

// **Portable Outdoor Unit** – Rugged enclosure bonding 5G and LEO satellite for reliable connectivity.

// **Portable Extenders** – 3 access points with battery- or AC-powered Wi-Fi 5 to expand coverage indoors and outdoors.

// **Power System** – Redundant PoE / AC / DC / USB-C inputs with built-in UPS backup.

// **Mounting Kit** – Telescopic tripod extendable to 3 meters and magnetic vehicle mount.

// **Ethernet Cable** – 100 meters of cable to bring the signal indoors or to your rack.

// **Always-On Subscription Service** – Always available global data, proactive monitoring, 24/7 support, lifetime warranty, rapid replacement, and no hidden fees.
